

From Y1960 there are several albums per selection:

The pages in the albums can optionally be printed from one album together with another to arrive at an album entirely to everyone's needs.

The problem with collecting is that you don't know what is effectif being collected.
Therefore I have made from **Y1960** several albums per year grouped into:

album distributions	Explanation coherent contiguous images = 2 or more stamps with a common coherent continuous image. .
<p>Stamps with a vignette and coherent contiguous images, whether or not coherent, are shown in the normal albums.</p> <p><u>From Y1960 until now</u></p> <p>Album coherent Y1958-Y1998.pdf : Album coherent Y1999-Y2009.pdf : Album coherent Y2010-Y2019.pdf : Album coherent Y2020-Y2029.pdf :</p> <p>From Y1960 are there "coherent" stamps: first horizontally or if not possible vertically of the same size or one-line (with different dimensions) if issued in: BL..., B..., F or V...-.... .
